EDUCATION

Indian Institute of Information Technology (IIIT) Manipur-Imphal, Manipur
Bachelor of Technology in Computer Science and Engineering

Aug. 2024 – May 2028
CGPA: 7.71/10

OPEN-SOURCE EXPERIENCE

Open-Source Contributor | FOSSology

June 2025 – Present

- Improved **Nomos dual-license detection** by expanding its regex to recognize additional license-introduction patterns, added regression test coverage, and contributed [a merged pull request](#).
- Fixed a UI notification bug causing duplicate “Close” buttons when deleting multiple uploads and contributed [a merged pull request](#).

PROJECTS

[Lekh](#) | *React, Tailwind CSS, Spring Boot, Spring-Security, MySQL, Google OAuth2, Netlify, Railway*

- Built an open-source cloud-synced note-taking application with Google OAuth2 authentication and **10+ REST API endpoints** for creating, editing, deleting, and synchronizing notes.
- Designed Spring Boot REST APIs with MySQL persistence and resolved unique-constraint conflicts to ensure reliable note storage and synchronization.
- Dockerized and deployed the React frontend on Netlify, Spring Boot backend on Render, and MySQL database on Aiven for a publicly accessible full-stack application.

[Book My Show](#) | *Spring Boot, Lombok, Spring Data JPA*

- BookMyShow-style movie ticket booking backend using Spring Boot, implementing REST APIs for movies, theatres, shows, seats, and bookings.
- Applied layered architecture with DTOs, service/repository patterns, Bean Validation, and global exception handling to build maintainable and reliable APIs. Applied DTO architecture, Bean Validation and global exception handling.
- Integrated MySQL using Spring Data JPA and Hibernate for persistent storage with filtering support.

[Expense Tracker](#) | *Spring Boot, MySQL, Docker, Swagger UI,*

- Developed a secure backend expense management application using Spring Boot.
- Implemented JWT-based authentication and authorization for protected REST APIs.
- Applied DTO architecture, Bean Validation and global exception handling.
- Integrated MySQL using Spring Data JPA and Hibernate for persistent storage with filtering support.

TECHNICAL SKILLS

Languages: Java, C/C++, SQL (MySQL), JavaScript

Frameworks/Libraries: Spring Boot, Spring Security, React, Tailwind CSS, REST APIs, JWT, Hibernate, Spring Data JPA

Developer Tools: Linux, Git, GitHub, Maven, Postman, Docker, VS Code, IntelliJ

Achievements

- Rated 1500+ on LeetCode, with 450+ Data Structures and Algorithms problems solved. | [Profile](#)
- 1st Place — Capture the Flag (CTF) Competition, Ahouba Tech Fest, IIIT Manipur.
- CodeChef: 2★ | [Profile](#)
